International Youth Scientific and Technical
 Conference

"Young science - robotics and nano-technology of modern mechanical engineering"

According to a separate report
 after May 31, 2022.

Kramatorsk, Ukraine

Dear young scientists!

The Organizing Committee invites you to take part in the
 International Youth Scientific and Technical Conference
**"Young science - robotics and nano-technology of modern
 mechanical engineering"**.

The conference will be held according to a separate report
 after May 31, 2022 in Kramatorsk at the Donbass State
 Engineering Academy (Ukraine) **using internet-platform for
 online access**.

The aim of the conference is the development of science,
 exchange of ideas and scientific and technical information on
 research conducted by young scientists.

The main themes of the conference:

- Robotization and artificial intelligence in modern
 machine-building;
- Progressive technological processes, technological
 equipment;
- Computerized provision of technological preparation
 of production;
- Quality improvement of manufacturing of parts,
 expansion of technological possibilities of equipment;
- Energy-sampling processes of shaping parts of
 machines;
- Nano-technology for the formation of working layers
 of machine parts;
- Development of youth creativity in the centers of the
 Small Academy of Sciences;
- Continuous education and international cooperation.

To participate you until May 31, 2022. send electronic
 application for participation in the conference materials
 for publication in the Proceedings of the conference and,
 if desired, the presentation of the report (in PowerPoint
